JACK HAMMER AIR HOSE REELS

18 GAUGE DUAL-ARM JACK HAMMER AIR HOSE REEL

- Stainless steel claw fittings.
- 12 Point ratchet system which helps lock out the hose at shorter lengths.
- Versatile mounting options suitable for wall, ceiling, floor, trucks, and trailers.
- High strength polyester woven braided reinforcement.
- Ozone resistant | Abrasion resistant.
- Kink resistant.

Available
Hose I.D. (in.): 3/4

Available
Hose Length (ft.): 50

The BluBird Pro 3/4" × 50' Jack Hammer Air Hose Assembly delivers reliable performance for jack hammers and pneumatic tools in demanding jobsite conditions. Engineered with stainless steel claw fittings, it supports up to 300PSI working pressure with a 4:1 safety factor, while remaining 9lb lighter than standard hoses.

Whether used in demolition, roadwork, or mining, this hose stays flexible from -50°F to +190°F. Its abrasion-resistant outer wrap, ozone- and kink-resistant design ensure consistent air flow and dependability in extreme weather.

Mounting Options

Floor,
Trucks & Trailers

Ceiling

Wall

Reel Features:

- 18 gauge powder coated heavy duty steel construction.
- Corrosion resistant fittings.
- 12 point ratchet system which helps lock out the hose at shorter lengths.
- Dual arm offer stability on fixed or moving surfaces like trailers, production lines.

Hose Features:

- Heavy-duty wrapped finish makes it more abrasion resistant
- 9 lbs lighter hose than standard jack-hammer hoses
- 1200 PSI burst pressure
- Stainless steel claw fitting
- Maintains integrity under extreme weather conditions
