Ultralight & Superstrong !

## Rubber Air Hoses

**Heavy-Duty  
Wrapped Finish**

**40% Lighter  
Than Traditional  
Rubber Air Hoses  
100% Rubber**

- Solid brass fittings that are superior to aircraft aluminium
- High-strength polyester woven braided reinforcement
- Flexibility from -50°F to +190°F
- Ozone resistant | Abrasion resistant | Kink resistant
- 4-Finger grip bend restrictor for better use & easier control over the hose

This ultra-light and super strong rubber air hose is 40% lighter than other rubber hoses, as light as PVC or hybrid air hoses. This BluBird rubber air hose lays flat and does not kink under pressure and is easier to clean and wrap neatly. Heavy-duty wrapped finish provides protection to prevent damage and wear in different applications and environments ensuring durability and longevity. Constructed with abrasion-resistant exterior cover and polyester braided reinforcement from the inside.

Flexibility in extreme conditions from -50°F to +190°F

**300** PSI working pressure

**4:1** Safety factor
