

Fast Fix 1/2"

Air Hose Assembly Fitting – Durable & Reliable

Enhance Your Hose Reel experience with the 1/2" NPT Brass Swivel Fitting

The Fast Fix 1/2" Air Hose Assembly Repair Fitting (FFFX12) is the ultimate solution for repairing damaged or leaking air hoses. Featuring a 1/2" MNPT Fixed Connector, this fitting is precision-engineered to create a secure and durable seal that prevents leaks and ensures your air tools perform at their best. Constructed from heavy-duty brass, it's built to withstand tough environments, making it an ideal choice for industrial, automotive, and construction applications. Designed for quick and easy installation, this repair fitting reduces downtime and keeps your tools running efficiently. Whether you're working with a high-pressure air hose or a lightweight rubber hose, this fitting is a dependable addition to your air tool setup.
