

Hose Reel Stopper

FOR 1/2" Hose

Secure Your Hose—Stop with Precision ———

This Hose Reel Stopper for 1/2" Hose is the perfect solution for those looking to keep their hoses organized and secure. Crafted from high-quality materials, this stopper effectively prevents unwanted unwinding of your hose, ensuring that it stays neatly coiled on the reel. This feature not only prolongs the life of your hose but also enhances safety by reducing the risk of tripping hazards. Designed specifically for 1/2" hoses, this stopper is versatile enough to fit most standard hose reels. Installation is straightforward, requiring no special tools or expertise. Simply attach the stopper, and enjoy peace of mind knowing your hose is secure and ready for use when you need it. Whether you're using it for gardening, irrigation, or industrial applications, the Hose Reel Stopper is a reliable and practical addition to your equipment, making hose management effortless and efficient.
