Aramid Braided Pressure Washer Hoses

35% LIGHTER

Than Traditional Wire Braided
Pressure Washer Hoses

100% Rubber

- Aramid braided reinforcement
- Kink resistant core design
- 1/2 MNPT fixed + swivel
- 4000 PSI working pressure
- 12000 PSI burst pressure
- Durable washer hose for heavy-duty tasks
- 3:1 Safety factor
- 4 finger grip bend restrictor for better use & easier control over the hose

Available
Hose I.D. (in.): 1/2

Available
Hose Length (ft.): 15, 50, 100, 200

Available on
Retractable : 50, 100

Non-Marking Design

Aramid Braided Pressure Washer Hoses

The Tough-Tek Rubber Pressure Washing Hose is built for power, durability, and versatility. Its robust 100% rubber construction and polyester braided reinforcement ensure it stands up to the toughest cleaning challenges. The hose's non-marking surface provides 4x more abrasion resistance than standard hoses, safeguarding delicate finishes while enduring heavy-duty conditions. Operating efficiently across extreme temperature ranges, it maintains flexibility in freezing weather as low as -20°F and performs flawlessly with hot water up to 250°F. With a 4000 PSI working pressure and a 12,000 PSI burst pressure. This hose is perfect for covering wide areas, while the kink-resistant design ensures continuous water flow without interruptions. Lightweight, portable, and designed to last, the Tough-Tek hose delivers maximum performance for any cleaning scenario.

- **Premium Rubber Construction** - Made from 100% high-grade rubber for enhanced strength, flexibility, and long-lasting durability, even under heavy use.
- **Polyester Braided Reinforcement** - Reinforced with polyester braiding to deliver superior tensile strength, supporting high-pressure applications up to 3000 PSI working pressure and 12,000 PSI burst pressure.
- **Non-Marking and Abrasion-Resistant Surface** - Designed with a smooth, non-marking finish, the hose protects surfaces from scratches while offering 4x the abrasion resistance of standard hoses.
- **Handles Extreme Temperatures** - Performs efficiently across a wide temperature range, maintaining flexibility in cold temperatures down to -20°F and handling hot water up to 250°F.
- **Kink-Resistant Design** - Eliminates frustrating kinks for uninterrupted water flow, ensuring seamless cleaning operations and reducing downtime.
- **Lightweight and Easy to Handle** - Weighing 35% less than traditional pressure washer hoses, it reduces user fatigue and allows for effortless maneuverability during extended cleaning sessions.
- **Ozone and Weather Resistant** - Engineered to resist ozone exposure and harsh outdoor conditions, ensuring long-term reliability and performance.
- **Universal Compatibility with M22 Connectors** - Equipped with durable M22 connectors for a secure and leak-free fit with most pressure washer systems, making it versatile for various applications.
- **Professional and Residential Use** - Perfect for professional cleaners, homeowners, and industrial users, this hose is built to deliver top-tier performance in every setting.
