4X ABRASION RESISTANT

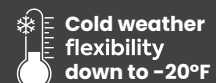

Aramid Braided Pressure Washer Hoses

35% Lighter & More Flexible than any other pressure washer hoses

- 4100 PSI Working Pressure | 16,400 PSI Burst Pressure
- 100% Rubber construction
- Aramid braided reinforcement
- Maintains integrity under extreme weather conditions
- Ozone resistant
- 4x Abrasion resistant
- Kink resistant
- Bend restrictor for better use & easier control over the hose

The ToughTek 100% rubber, pressure washer hose is one of the best options available in the market. It comes with a plastic coated smooth finish cover that is 4x stronger and performs better than any other pressure washer hoses on a rough surface. These hoses are braided with aramid fibers, commonly known as Kevlar which makes it 35% lighter than any other hoses while keeping it's in shape for heavy duty tasks. Aramid keeps this hose highly flexible with extraordinary tensile strength. It is extremely weather resistant and can handle hot water up to 250°F while remaining flexible in cold weather temperatures down to -20°F. The four finger grip bend restrictors reduce the bending stress near the coupling and increase the working efficiency by adding better control. These hoses have a 4100 PSI working pressure and a 16,400 PSI safety burst pressure (4:1).
